About

Hello ! ** My name is **Koray Çetin. I am studying **Management Information Systems at Bogazici University**. I am pleased with **programming**, exploring, and having ideas about novel technologies and breakthroughs. In addition, music and football are some of my hobbies.

I am experienced with **JavaScript** and **Node.js**. I've done many projects to improve my skills on these topics.

I am a determined and goal-oriented person. When I get a task, I do my best to finish that task appropriately.

I would like to work on projects and in organizations where I can use my skills and knowledge.
